ABOUT US:

“Little Smarties” Pre-Pact Academy is an extension of Impact Ministries Worldwide/Impact Church. We are an early education center staffed to teach ages 3-5 with kind, dedicated, compassionate teachers. We are here to provide a safe, structured environment to help bring your child up in the way that they should go.

CURRICULUM:

“Little Smarties” Pre-Pact Academy combines Frog Street and Abeka for our Pre-K classrooms. These curriculums promote that children learn best through actively engaging in their environment. Children will be involved in hands-on experiences, real-life adventures, and assisted discovery as they explore concepts through play. “Little Smarties” Pre-Pact Academy is a place where essential readiness skills are nurtured through play, investigation, and fun! These programs provide developmentally and age-appropriate activities and materials for exciting, wonder-filled environments.

MISSION:

“Little Smarties” Pre-Pact Academy was established to provide our community with a safe and secure place where children feel unconditional love and acceptance. We aim to empower each child in every aspect of their early childhood development. We are committed to providing academic excellence in a biblically oriented environment.

“Little Smarties” Pre-Pact Academy is founded on the principle that each child is a specially created gift from God. Our mission is to love, encourage, and develop each child’s spiritual, emotional, physical, and academic needs in a nurturing environment. Our students will learn about being good citizens and showing courtesy, truthfulness, reliability, responsibility, and trustworthiness.

“Little Smarties” Pre-Pact Academy is dedicated to giving your child the best start by laying the foundation for a lifetime of learning. Our primary purpose is to guide children on the right path through Christian education and to serve as a reinforcing agent of Christian principles outlined in the home. We strive to teach each child to do right, to be responsible, and to love God.

VISION:

We believe children experience the greatest growth when they feel safe and connected. We strive to create a compassionate school family culture environment. We acknowledge the importance of teaching the children of our future a skill set to ensure self-regulation and problem-solving. We work with you to establish routines and rituals that provide predictability and consistency within our classrooms.

VALUES:

- We recognize the **Potential** in children as unique creations of God.
- We value the **Partnership** with parents and families.
- We ensure quality **Provision** through our school, facility, and staff.
- We believe in **Play** because learning should be fun and creative.
- We have a **Passion** for treating children with love, kindness, and respect.
- We are **Planting** seeds for a strong foundation and a lifetime of learning.
